

The image displays a variety of agricultural machine components against a green gradient background. At the top, a long black chain runs vertically. Below it, a large black sprocket with many teeth is visible. To the left, a large silver-colored metal blade with three rectangular cutouts stands vertically. In the center, a black curved blade with a serrated edge is prominent. At the bottom left, a red curved blade with a serrated edge is shown. Scattered around these larger parts are several smaller components: a small silver sprocket, a black three-lobed star-shaped part, a black circular disc, and various other small metal pieces and segments.

The pictures in the catalogue are the right models.

Die angebotenen Artikel sind Qualitätserzeugnisse mit Garantie, passend zu den entsprechenden Maschinenfabrikaten. (Keine Original Ersatzteile) Die Original-Nummern dienen nur der Zuordnung. Alle angegebenen Abmessungen und Ausführungen entsprechen den z.Zt. gültigen Anforderungen. Wir behalten uns das Recht auf Abweichungen, bedingt durch Werkzeug- oder Anforderungsänderungen, vor.

Les articles présentés sont des produits de qualité garantie s'accordant aux machines correspondantes. (aucune pièce de rechange originale) Les références d'origines ne servent qu'à la coordination. Les exécutions et les dimensions satisfont aux exigences actuelles. Nous nous réservons le droit de toute modification dûe aux changements d'exigences ou d'outils.

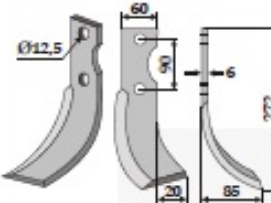

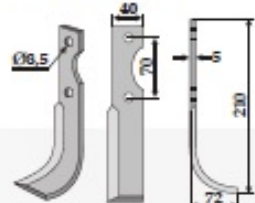

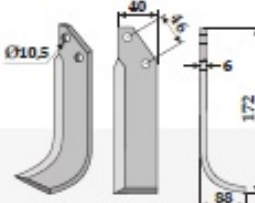

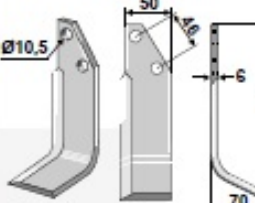

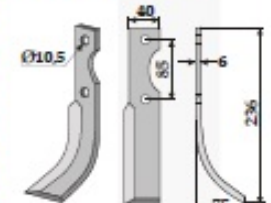

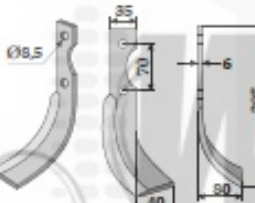

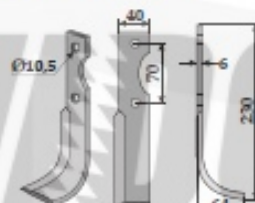

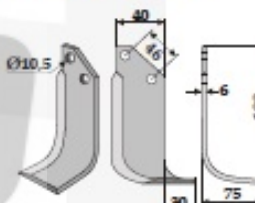

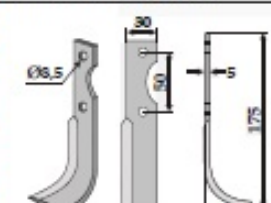

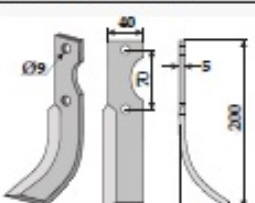

Muzzi-Fräsmesser werden ausschließlich aus Borstahl hergestellt und auf 46 +/- 3 HRC gehärtet. Gekennzeichnet werden die Messer mit einem eingepprägten Adler.

Les couteaux Muzzi sont fabriqués exclusivement en acier au bore et trempés à 46 +/- 3 HRC. Ils sont marqués d'un aigle.

Muzzi-blades are exclusively made of boron steel and hardened on 46 +/- 3 HRC. They are marked with an eagle.
