

The image features a variety of agricultural machine components. A long, dark chain runs vertically from the top left towards the center. Below it, a large, dark, serrated blade or sprocket is angled. In the foreground, a large, silver, rectangular metal part with three horizontal slots is prominent on the left. To its right, a smaller, dark, curved blade with a serrated edge is shown. At the bottom left, a curved red chain is visible. Scattered around these larger parts are several smaller components: a small silver sprocket, a dark circular disc, a three-lobed star-shaped part, and various other small metal pieces and blades. The entire scene is set against a green gradient background.

Die angebotenen Artikel sind Qualitätserzeugnisse mit Garantie, passend zu den entsprechenden Maschinenfabrikaten. (Keine Original Ersatzteile) Die Original-Nummern dienen nur der Zuordnung. Alle angegebenen Abmessungen und Ausführungen entsprechen den z.Zt. gültigen Anforderungen. Wir behalten uns das Recht auf Abweichungen, bedingt durch Werkzeug- oder Anforderungsänderungen, vor.

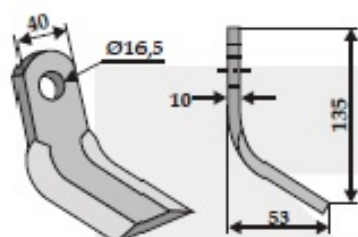

Les articles présentés sont des produits de qualité garantie s'accordant aux machines correspondantes. (aucune pièce de rechange originale) Les références d'origines ne servent qu'à la coordination. Les exécutions et les dimensions satisfont aux exigences actuelles.

Hammerschlegel werden ausschließlich aus Borstahl hergestellt, auf 48 +/- 3 HRC gehärtet und kugelbombardiert
Les marteaux broyeurs sont fabriqués exclusivement en acier au bore, trempé à 48 +/- 3 HRC et grenallés
Pruning hammers are exclusively made of boron steel, hardened on 48 +/- 3 HRC and shot peening treated

Bomford

Technical drawing of the Bomford 63-BOM-80 pruning hammer assembly. The drawing shows the hammer head (1) with dimensions 38, 26, 27, 25,5, 15,5, and a radius of R=114. The handle (2) has a diameter of Ø15,5. The internal bush (3) has a diameter of Ø26,5. The bolt (4) has a length of 96 and a diameter of Ø14,5. The nut (5) has a height of 14. The assembly is shown with dimensions 45,5, 62, 68, and 18.

63-SPR-00-02	
Schlegel komplett montiert fléau assemblé / flail assembled	
 The diagram shows a side view of the assembled flail. It features a mounting bracket at the top with a pin (63-SPR-03) and a nut (63-SPR-51). A pin (63-716114) is shown at the base of the bracket. The flail itself is a curved blade (63-SPR-02) attached to the bottom of the bracket. Two vertical dimension lines are shown on the right: one for the total height of 180 and another for the height of the bracket assembly of 165.

Dieser Artikel kann sowohl als Y-Messer, oder als Schlegel verwendet werden!
Cet article peut être utilisé comme couteau-Y ainsi que comme fléau!
This item can be used as Y-knife or flail blade!

Montage Y-Messer

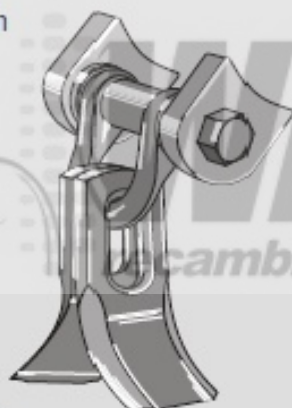

Diese Messer werden mit einem geraden Schäkel und einer Schraube mit Mutter befestigt. Das Gras wird auf der Länge der Schneide geschnitten.

Montage couteau-Y

Ces fléaux sont maintenus à l'aide d'une manille droite liée par un système vis et écrou. L'herbe est coupée sur la longueur du tranchant du fléau.

Assembly of Y-blades

These blades are fixed with a straight shackle and a bolt and nut. The grass is cut at the length of the cutting edge.

Montage Schlegel

Dieser Schlegel wird mit einem gedrehten Schäkel und einer Schraube mit Mutter befestigt.

Montage Cuiller

Ce fléau également maintenu à l'aide d'une manille torse liée par un système vis et écrou.

Assembly of flails

These flails are fixed with a turned shackle and a bolt and nut

Wirtschaftlich

Bestandsreduzierung auf allen Ebenen:

- Händler, die schon einen hohen Lagerbestand haben
- Lohnwerker, die Ihre Liquidität verbessern wollen
- Verwaltungen, die die öffentlichen Ausgaben reduzieren wollen

Benutzerfreundlich

Vereinheitlichung von 2 Montage-Typen:

- vermeidet Montagefehler und erhöht die Arbeitsproduktivität
- verbessert deutlich die Schnittqualität: Die Schnittqualität der 8mm Messer ist dann (in den 2 Arbeitspositionen) vergleichbar mit der eines 5mm Messers

Economique

Réduction des stocks à tous les niveaux:

- Concessionnaires qui ont déjà des stocks importants de pièces et de matériels.
- Entrepreneurs travaux agricoles, soucieux d'améliorer leur trésorerie.
- Administrations qui sont dans une phase de maîtrise de la dépense publique.

Confort de l'utilisateur

Standardisation de deux montages principaux:

- Évite les erreurs de montage et donc augmente l'efficacité au travail.
- Améliore nettement la qualité de coupe des couteaux d'épaisseur 8mm, dans les deux positions de travail, comparable à celle d'un couteau d'épaisseur 5mm.

Economical

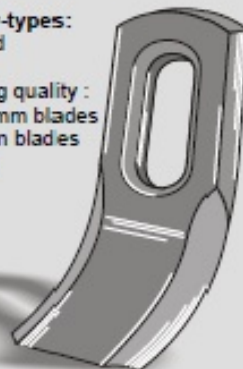

Stock reduction at all levels:

- dealers with a high stock level
- Workers who want to improve their liquidity
- administrations who want to reduce public costs

User-friendly

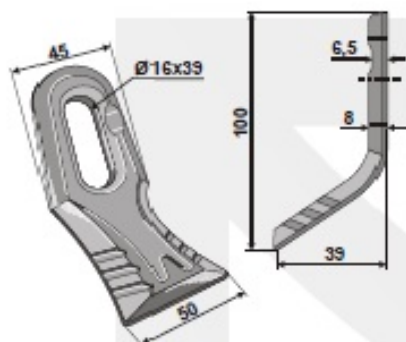

Unification of 2 assembly-types:

- avoids assembly errors and increases productivity
- increases clearly the cutting quality: the cutting quality of the 8 mm blades is comparable with the 5mm blades (in the 2 working positions)

63-UNI-16

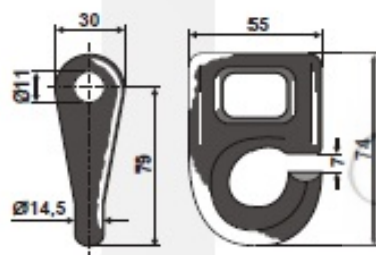

Y-Messer
couteau-Y / Y-blade

Schnell-Wechsel-System

Système à échange rapide
Quick-Change-System

Wirtschaftlich!

- keine Buchse mehr
- Zeitgewinn beim Wechsel der Schlegel

Benutzerfreundlich!

- einheitliche Auswechslung
- einfacher Eingriff vor Ort ohne spezielles Werkzeug

Austausch in einem Handgriff!

- 75% Zeitgewinn (für einen Rotor mit 60 Schlegel)

Economique!

- suppression de l'entretoise
- gain de temps dû à la rapidité du changement des fléaux

Confort de l'utilisateur!

- changement unitaire
- intervention facile sur le terrain sans outillage spécifique

Un changement en un tour de main!

- 75% de temps gagné (pour un rotor de 60 couteaux)

Economical!

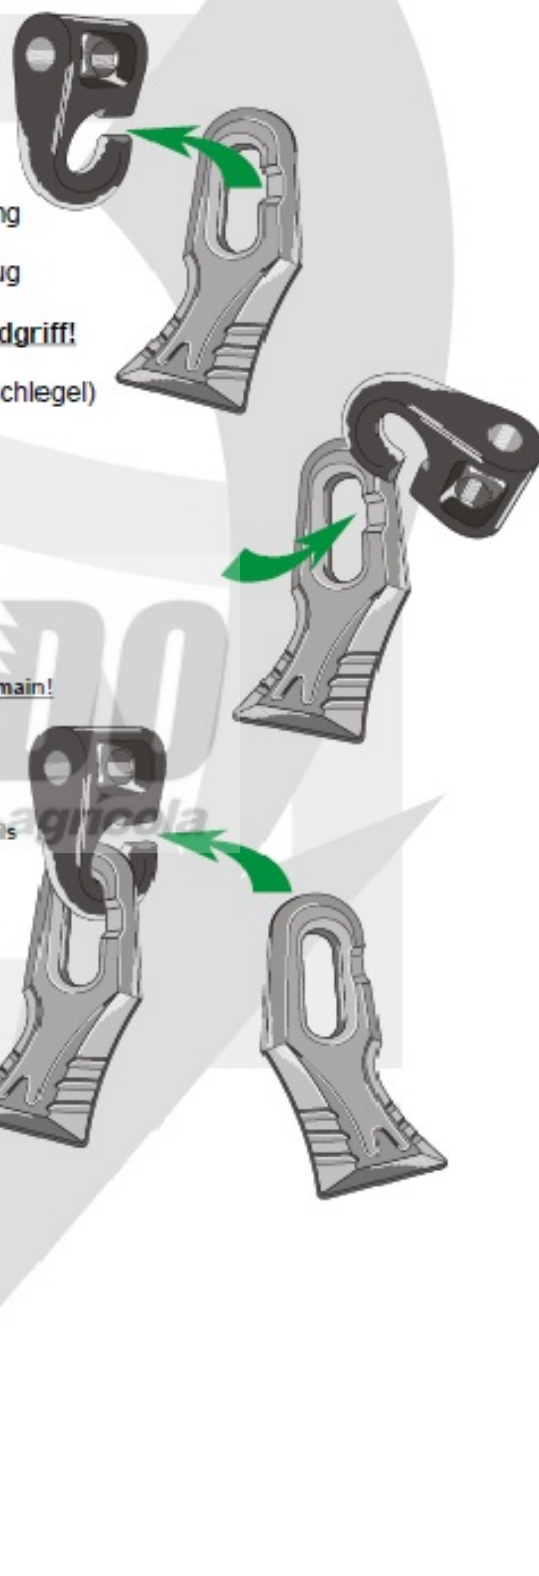

- No bushes anymore
- Gain in time when changing flails

User-friendly!

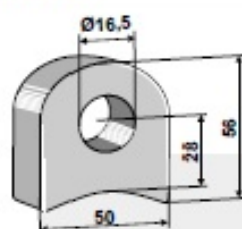

- uniform exchange
- simple operation on the spot without any special tools

Exchange in one grip!

- 75% gain in time (for 1 rotor with 60 flails)
